Portfolio

Profile

Full Stack Developer with professional and internship experience
delivering and supporting web applications using TypeScript, JavaScript, React, Node.js and PostgreSQL. Brings hands-on experience in AWS deployments, CI/CD, regression testing, production troubleshooting and peer code reviews. Collaborates on requirements and feature delivery, mentors junior developers and uses Claude Code to support development. Focused on maintainable code, reliable releases and clear communication across technical and non-technical teams.

Work Experience

Full Stack Developer Jul 2024 - present
ITTHYNK SMART SOLUTIONS

• Build and maintain Opher, a recruitment platform using React, Next.js, TypeScript and PostgreSQL. Implemented automated health checks and email alerts to detect production issues.

• Build reusable React components and responsive interfaces using HTML5, CSS3 and Tailwind CSS to support user-friendly application workflows.

• Design and maintain RESTful APIs using Node.js and Express.js. Integrate application features with backend services and relational databases using secure data handling practices.

• Investigate production issues, identify root causes and implement fixes to improve application stability.

• Use Docker to containerize applications and maintain GitHub Actions CI/CD workflows. Support AWS deployments with EC2 and S3, and monitor production with CloudWatch.

• Collaborate with developers and stakeholders on requirements, feature delivery and code reviews; communicate progress and resolve technical issues.

• Guide junior developers and interns through code reviews, practical technical training and collaborative problem-solving.

Software Engineering Intern 2023 - 2024
ITTHYNK SMART SOLUTIONS

• Participated in Agile sprint planning, testing, bug tracking and progress reviews.

• Supported regression testing, bug tracking and issue validation with Microsoft Test Manager and Azure DevOps.

• Collaborated on troubleshooting and feature delivery using GitHub Projects and pull requests.

Computer Lab Assistant 2021 - 2022
Tshwane University of Technology | Contract

• Provided software support to students and staff and maintained reliable lab environments.

Technical Skills

Programming: TypeScript, JavaScript (ES6+), C#, C++, SQL, PL/SQL

Frontend: React, Angular, Next.js, Vue.js, HTML5, CSS3, Tailwind CSS, responsive design

Backend & APIs: Node.js, Express.js, .NET Core, RESTful APIs, GraphQL

Databases: PostgreSQL, Prisma ORM, Supabase, relational database integration

Cloud & delivery: AWS (EC2, S3, CloudWatch), Azure, Docker, GitHub Actions, Azure DevOps, CI/CD

Tools & practices: Git, GitHub, Claude Code, OOP, code reviews, debugging, regression testing, Agile/Scrum, technical documentation

Mobile: React Native, Expo

Projects

Opher - Recruitment Platform

Built a bulk import workflow for participant records with validation and invitation previews.
Integrated attendance syncing and added automated production health checks with email alerts.

QR Share

https://qr-doc-share.vercel.app/

Document and link sharing application with file uploads, downloadable QR codes and account-based document management.

AmorNest

https://amornest.vercel.app/

Mobile app built with React Native, Expo, TypeScript and Supabase, featuring authentication, database-backed features and app release workflows.

Somemore Monate Galore

https://somemore-monate-galore-admin-5847.vercel.app/

Restaurant website with an online menu, shopping cart and food ordering flow.

Bridgette Ngobeni - Author Website

https://bridgette-ngobeni.vercel.app/

Author website showcasing a writer profile and the book Songs for My Love.

Education

National Diploma in Information Technology: Software Development

Tshwane University of Technology | 2023

Senior Certificate

Kgadime Matsepe Secondary School | 2017

Certifications

Graph Developer - Associate

Microsoft Azure Fundamentals

Microsoft Azure Developer Associate

AWS Certified Cloud Practitioner

AWS Certified SysOps Administrator - Associate

AWS Solutions Architect Professional

Core Competencies

Analytical problem-solving • Collaborative delivery • Quality focus • Technical communication • Production troubleshooting • Code review • Technical mentorship
